## IBM WATSON CLOUD

The screenshot shows the IBM Cloud console interface. At the top, there's a navigation bar with 'IBM Cloud', a search bar, and links for 'Catalog', 'Manage', and the user profile 'Bharath Kumar S's Acc...'. Below this, the 'Resource list' section displays 'Internet of Things Platform-mw' with a green 'Active' status and a link to 'IAM | access.b...'. A sidebar on the left contains 'Manage', 'Plan', and 'Connections'. The main content area features a large graphic of a central square with four lines extending from it, each ending in a different symbol (a circle, a square, a triangle, and a circle). To the right of the graphic, the text reads 'Let's get started with IBM Watson IoT Platform' followed by a description: 'Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.' Below this are 'Launch' and 'Docs' buttons. At the bottom, there's a section titled 'Ready for the next level?' with a link to 'IBM Watson IoT Platform Journey' and a progress indicator showing three steps, with the first step completed.

The screenshot shows the 'Browse Devices' page in the IBM Watson IoT Platform. The top navigation bar includes 'Browse', 'Action', 'Device Types', and 'Interfaces', along with an 'Add Device' button. The main heading is 'Browse Devices'. Below it, there are two tabs: 'All Devices' (selected) and 'Diagnose'. A paragraph explains that the table shows a summary of all devices added and can be filtered, organized, and searched. Below this is a search bar labeled 'Search by Device ID' and a 'Device Simulator' toggle switch. The table has columns for 'Device ID', 'Status', 'Device Type', 'Class ID', and 'Date Added'. The table is currently empty, and a message at the bottom states 'You don't have any devices.' with a plus icon.
